Let's

Start

Talking

You want to practise your English?

Through personal friendship with the founders of Let's Start Talking the Cologne Gemeinde Christi has provided for almost 20 years now this unique and personal approach to learning the English language.

We believe that a friendly relationship and the exchange of personal insights contribute more to the development of language skills than many other popular methods.

Many thousands of people have improved their English using this very effective method.

Let's Start Talking will help you to improve your English, open doors of opportunity and enable you to talk in-depth with a native English-speaker on a regular basis.

From October 2 to 20 we will host a team of four native speakers, which gives plenty of opportunity to practise your English.

The conversation classes will take place at our church building at **Burgunderstr. 6 in 50677 Köln (near Barbarossaplatz / Eifelstraße).**

These classes are free of charge and absolutely non-obligatory.

To build and establish good relationships between readers and native speakers, we offer a program of social activities like parties, barbecues and film nights.

LET'S
**START
TALKING**

...begins again in October!

On October 2, at 7 pm, we will have an information meeting with the team. There you can get acquainted with the team and register for your one-on-one classes.

To get additional information please contact us (see back page). Join us to improve your English and form new friendships...
